MEMORANDUM FOR: Deputy Director (Support)

SUBJECT: Intelligence Responsibilities for [REDACTED] STATINTL

STATINTL

It would appear from the attached that we clearly are not precluded under the provisos in the National Security Act from considering [REDACTED] within our intelligence orbit. Consequently, if there is an intelligence vacuum in [REDACTED] we have a responsibility to see that it is adequately provided for. The Department of the Army has governmental jurisdiction and consequently would normally be responsible for internal security. The intelligence aspects would, therefore, seem to be a matter for direct discussion with the Army G-2.
